

## راهنمای استفاده از کد ملی به عنوان نام کاربری

جهت تعریف کد ملی به عنوان نام کاربری (User Name) می بایست به پنل مدیریت ادوبی کانکت وارد شوید و در قسمت Administration بر روی Users and Groups کلیک نمایید.

سپس در قسمت Edit Login and Password Policies گزینه Use e-mail address as the login را بر روی No قرار داده و در پایین صفحه بر روی دکمه Save کلیک نمایید.

The screenshot shows the Adobe Connect Administration interface. At the top, there is a navigation bar with the following items: Home, Content, Training, Meetings, Seminars, Event Management, Reports, Administration (highlighted with a red box), and My Profile. Below this is a secondary navigation bar with: Account, Users and Groups (highlighted with a red box), Audio Providers, Video Telephony Devices, Customization, Compliance and Control, and Administration Dashboard. The main content area has a breadcrumb trail: Users and Groups | Customize User Profile | Edit Login and Password Policies (highlighted with a red box) | Import | Cost Centers | SSO Settings. Below the breadcrumb, there is a paragraph: "The following set of login and password policies allow administrators to align Adobe Connect with their existing security policies. These policies are enforced across the Adobe Connect application." A section titled "Login Policy" contains the text: "Specify whether or not you wish to use the user's e-mail address as their default login, or another ID (such as network login or employee ID). Note: login credentials must be unique across all users." At the bottom of this section, there is a label "Use e-mail address as the login:" (highlighted with a red box) followed by two radio buttons: "Yes" (unselected) and "No" (selected).
